EDUCATION

De La Salle Lipa (DLSL)

2022 – Present

Bachelor of Science in Computer Science

Electives: Game Development

RELEVANT PROJECTS

Circuit Breakers (Thesis) | Best Thesis, Best Paper, Best Presenter Award— 2024 - Present

- A 2D PC roguelike game made in Unity using C# about cybersecurity.
- Served as Lead Author for the award-winning thesis paper and technical documentation, while also executing rigorous numerical balancing and analysis for gameplay and database systems
- Aided in the development of systems and functionality from buttons and gameplay, to mechanics and numerical balancing.

Coin Crisis

2025

- A 2D PC game made in Unity using C# about a student's lifestyle.
- Collaborated in building the concept of the game as well as designing and building game mechanics, gameplay loop, storyboard, events, and items.

Melanoma Skin Cancer Detection System (Capstone)

2025

- Developed a Convolutional Neural Network (CNN) using Python and TensorFlow/Keras to classify dermoscopic images as benign or malignant with over 90% accuracy.
- Engineered and executed several experimental iterations comparing different optimizers and activation functions to identify the most stable convergence patterns

Web Development Library System

2024

- A library website that keeps track of books, users, and activity of the Admin, Librarians, and Borrowers.
- Built the CRUD systems, user activity log tracking, and transaction records. Developed and managed interactions and user feedback between all three users.

SKILLS

Technical: Microsoft Office, Canva, Figma, GitHub, Photoshop, Unity, and Microsoft Visual Studio and Visual Studio Code

Web/ Mobile Development: HTML, CSS, React, and React Native

Programming Languages: C#, C++, Python, JavaScript

Communication & Creative:

- Bilingual: Fluent in English and Tagalog (written/oral); basic Japanese (Kana).
- Creative Writing: Experienced in narrative design and technical documentation.
- Voice Articulation: Skilled in voice acting and audio production; strong verbal communication and presentation skills.
