

The Wasteland Operative

The Wasteland Operative is more than a survivor—it's a weapon forged in the fires of an unforgiving world. Clad in scavenged armor patched with circuitry and carrying weapons powered by lost technologies, these rangers are the unseen apex predators of the fractured realms. They move with purpose, their every step calculated to outwit, outlast, and outgun. To them, the wastelands are not dead but alive—a breathing, hostile entity, and they are its apex masters.

Every Operative carries the weight of a thousand extinct civilizations on their shoulders. Their biomechanical enhancements hum faintly with dormant energy, their eyes glow with a predatory focus, and their hands steady weapons that are half-machine, half-mystery. In battle, they unleash plasma bolts and chemical-laced projectiles, their every strike guided by an uncanny precision that borders on the supernatural.

But the Wasteland Operative is no mindless killer. They are strategists and survivalists, hacking into ancient terminals to uncover forgotten truths or disabling enemy war machines with the press of a button. Their biomechanical companions—be it a sleek drone that whispers through the skies or a clanking juggernaut that tears through enemy lines—serve as extensions of their will, ensuring nothing escapes their reach.

In a world where gods have fallen silent, the Wasteland Operative carves their own legend in the dust and ruin. They are the hunters who never sleep, the shadow that watches from a crumbling rooftop, and the whisper of death carried on a desert wind.

"You can run, but out here, everything leaves a trail—and I never lose the scent."

Hit Points

- **Hit Dice:** 1d10 per Ranger level
 - **Hit Points at 1st Level:** 10 + Constitution modifier
 - **Hit Points at Higher Levels:** 1d10 (or 6) + Constitution modifier per Ranger level after 1st
-

Proficiencies

- **Armor:** Light armor, medium armor, shields
- **Weapons:** Simple weapons, martial weapons, exotic ranged weapons (e.g., plasma rifles, particle bows)

- **Tools:** Navigational tools or scavenger's kit
 - **Saving Throws:** Strength, Dexterity
 - **Skills:** Choose three from Acrobatics, Athletics, Insight, Investigation, Perception, Stealth, Survival, and Technology.
-

Class Features

1st Level: Wasteland Survivor

You are optimized for survival in a hostile environment:

- **Overland Mastery:** You ignore all forms of difficult terrain, and you cannot be slowed by environmental effects.
 - **Elemental Conditioning:** Gain resistance to two environmental hazards (e.g., radiation, acid, extreme cold/heat). You can change these resistances after a long rest.
 - **Scavenger's Intuition:** You add your proficiency bonus to Intelligence (Technology) and Dexterity (Sleight of Hand) checks when disarming traps, hacking terminals, or scavenging advanced technology.
 - **SCAVENGERS TOOLKIT(inplace of spells):** A wasteland operator may produce these items to a certain amount at every longrest:
https://docs.google.com/document/d/1dTT1iC-2z_qYqqwX8UACZIk_aGMj4sd5hEvddej8Uk/edit?usp=sharing
-

1st Level: Tech-Hunter's Mark 2.0

Your targeting systems allow unparalleled focus. As a bonus action, choose one creature within 120 feet. For the duration, you gain the following benefits:

- Your weapon attacks against the target deal an extra 1d8 damage.
- Attacks against the target ignore resistance and cover.
- You can always sense the target's location, even through walls or invisibility.

This feature lasts 1 hour or until the target drops to 0 HP. You can use this feature a number of times equal to your proficiency bonus, regaining all uses after a long rest.

At **14th Level**, your Tech-Hunter's Mark deals an additional **1d8 damage** (total 2d8) and bypasses **immunity**.

2nd Level: Enhanced Combat Protocols (*Replaces Fighting Style*)

Choose one of the following combat enhancements:

- **Overkill Sniper:** Ranged attacks score a critical hit on a roll of 18-20, and you ignore disadvantage due to long range.
 - **Close Quarters Specialist:** Melee attacks deal an additional 1d6 damage. When you hit with an opportunity attack, you can move up to half your speed without provoking further opportunity attacks.
 - **Tactical Protector:** While wearing medium armor, you can use a reaction to impose disadvantage on an attack against an ally within 15 feet. If the attack misses, the attacker takes damage equal to your Dexterity modifier.
-

3rd Level: Cybernetic Companion (*Replaces Ranger's Companion*)

You gain a powerful biomechanical construct as a companion. Choose one of the following:

- **Predator Drone:** A flying scout equipped with stealth systems and ranged weaponry.
- **Juggernaut Strider:** A quadrupedal war machine with enhanced armor plating and melee capabilities.
- **Swarm Hive:** A colony of drones that can perform swarm attacks or deploy shielding protocols around allies.

Companion Upgrades:

At each tier of play (5th, 11th, and 17th levels), you can enhance your companion with new capabilities such as advanced sensors, increased attack power, or additional abilities (e.g., area denial weapons).

UPGRADES:

https://docs.google.com/document/d/1-XjF_jVQ7JF1AvMvGP6Jev-kDKGENmxBgTuv-XflYoY/edit?usp=sharing

3rd Level: Wasteland Archetype (*Enhanced Ranger Archetype*)

- **Recon Operative:** Specialists in mobility and stealth. Gain the ability to Dash or Hide as a bonus action. Ranged attacks deal an additional 1d6 damage against creatures unaware of your presence.
- **Combat Engineer:** Masters of scavenging and creation. Gain a pool of **gadget charges** equal to twice your proficiency bonus. Use these charges to deploy tools like EMP grenades, energy shields, or proximity mines.
- **Relentless Hunter:** Hunters of rogue AIs and monstrosities. You deal an additional **1d8 psychic damage** to enemies reliant on technology. When a creature targeted by your Tech-Hunter's Mark dies, you regain **1 use** of the feature.

FULL DETAILS:

<https://docs.google.com/document/d/1t3M9kwmUzT9j14KVGoAhNwZyGYnjiLWRQXCe0AeDts/edit?usp=sharing>

5th Level: Multi-Vector Assault (*Replaces Extra Attack*)

When you take the Attack action, you can make two weapon attacks. Additionally, if you hit two different targets in the same turn, you can make a third attack as part of the same action.

6th Level: Neural Interface (*Replaces Natural Explorer*)

You develop a neural uplink with your biomechanical systems:

- You gain darkvision out to 120 feet. If you already have darkvision, its range increases by 60 feet.
 - You can interface with advanced technology using your neural interface, granting advantage on Technology checks.
 - You gain resistance to psychic damage, as your mind is shielded against intrusion.
-

10th Level: Active Camouflage Field (*Replaces Hide in Plain Sight*)

You gain a prototype stealth field generator. As a bonus action, you activate this field for 1 minute:

- You become invisible. Attacking or casting a spell does not end this invisibility.
- While invisible, you leave no traces of your passage.

You can use this ability a number of times equal to your Dexterity modifier (minimum 1). You regain all uses after a long rest.

14th Level: Overcharged Strike

Once per turn, when you hit a creature with a weapon attack, you can deal an additional **4d8 damage** to the target. If the target is a construct or has integrated technology, it must make a Constitution saving throw (DC = 8 + your proficiency bonus + your Intelligence modifier) or be **stunned** until the end of your next turn.

18th Level: Tactical Superiority (*Replaces Feral Senses*)

You are an apex hunter, optimized for battle:

- You can no longer be surprised.
 - Your attacks score a critical hit on a roll of 19-20.
 - Your movement speed increases by 20 feet, and you can Dash as a bonus action.
 - You can see through solid objects (up to 30 feet) and detect life forms and heat signatures.
-

20th Level: Wasteland Paragon (*Replaces Foe Slayer*)

You become the ultimate predator of the wasteland. Your capabilities include:

- **Infinite Precision:** Tech-Hunter's Mark lasts until the target dies, with no need to maintain concentration.
- **Unstoppable Assault:** When you target a creature with Tech-Hunter's Mark, you can attack it as a bonus action.
- **Battlefield Domination:** Once per long rest, you can activate a **Domination Mode** for 1 minute, gaining the following benefits:
 - All of your attacks deal an extra 2d10 damage.
 - You can make one additional weapon attack on each of your turns.
 - When you reduce a creature to 0 HP, you regain hit points equal to your Ranger level.

The Bioforge Berserker: Fury Made Flesh

The Bioforge Berserker is the embodiment of raw power, a walking testament to the unholy union of flesh and machine. Built to survive a world where strength is the only law, these warriors channel their primal rage through cybernetic implants and experimental augmentations. Their bodies hum with the rhythm of overclocked systems and enhanced musculature, each step a thunderous reminder that no obstacle can stand against brute force paired with unrelenting will.

In battle, the Berserker is chaos incarnate. Hydraulic servos amplify their strikes to bone-crushing force, and adrenal boosters drive them beyond mortal limits. Sparks fly from their fists as they tear through steel and sinew alike. When their rage surges, flesh and machine become indistinguishable—a whirlwind of fury and destruction that cannot be stopped until its enemies are reduced to ash and ruin.

Yet, the Bioforge Berserker is more than a mindless engine of violence. Their rage is born of something deeper: a primal defiance against the cold, mechanical inevitabilities of their broken world. They are relics of a time when fury and heart mattered more than algorithms and logic—a force of nature that refuses to be tamed by the dead hands of progress.

In a land of gods and machines, the Berserker stands as a monument to the strength of unchained will and raw defiance.

"They call me a monster. I say they're right—but I'm the monster this world deserves."

Hit Points

- **Hit Dice:** 1d12 per Barbarian level
- **Hit Points at 1st Level:** 12 + Constitution modifier
- **Hit Points at Higher Levels:** 1d12 (or 7) + Constitution modifier per Barbarian level after 1st

Proficiencies

- **Armor:** Light armor, medium armor, shields
 - **Weapons:** Simple weapons, martial weapons, cybernetic melee systems (e.g., vibro-axes, shock gauntlets)
 - **Tools:** Cyberforge tools or field maintenance kits
 - **Saving Throws:** Strength, Constitution
 - **Skills:** Choose two from Athletics, Intimidation, Perception, Survival, Insight, and Technology
-

Class Features

1st Level: Augmented Fury

When you rage, your biomechanical implants activate, fueling you with raw destructive power. While raging, you gain the following benefits:

- Gain temporary hit points equal to $3 \times$ your Barbarian level when you enter a rage.
- Melee attacks deal an additional 2 damage (increases to 3 at level 6, 4 at level 12, and 5 at level 18).
- Once per turn, when you take damage, you can release an electromagnetic pulse (EMP) in a 10-foot radius. All creatures in the radius take damage equal to your Constitution modifier.

Rage still grants the standard Barbarian advantages (e.g., resistance to damage types, etc.).

You can rage a number of times equal to your proficiency bonus, regaining all uses after a long rest.

1st Level: Brutal Cybernetics

Your body is a living weapon. Choose one of the following augmentations to enhance your physical abilities:

- **Hydraulic Charge:** Your unarmed strikes deal 1d8 bludgeoning damage. Once per turn, when you take the Dash action, you can make one unarmed strike as a bonus action.

- **Overclocked Reflexes:** Your movement speed increases by 10 feet. Additionally, opportunity attacks against you have disadvantage.
 - **Reactive Armor:** When a creature within 5 feet of you hits you with an attack, you can use your reaction to deal 1d6 lightning damage to them.
-

2nd Level: Overclocked Combat Protocols (Replaces Reckless Attack)

You can push your systems beyond safe limits, trading precision for raw power. When you make your first attack on your turn, you can choose to activate Overclocked Combat. For that turn:

- Gain advantage on all melee weapon attacks.
 - All successful melee weapon attacks deal an additional 1d6 damage.
 - At the end of your turn, take damage equal to your Constitution modifier.
-

3rd Level: Path of the Bioforge (Replaces Primal Path)

Your connection to biomechanical enhancement defines your power. Choose one of the following paths:

Path of the Titan

Your implants are built for brute force. You gain the following abilities:

- **Massive Frame:** Gain advantage on Strength checks and saving throws to shove or grapple.
- **Devastator Strike:** As an action, deliver a single overwhelming attack. This attack deals an extra 3d12 force damage and creates a 10-foot shockwave that forces creatures in the radius to make a Strength saving throw (DC = 8 + your proficiency bonus + your Strength modifier) or fall prone. Recharge on a short or long rest.

Path of the Predator

Your enhancements make you a lethal hunter. You gain the following abilities:

- **Adaptive Cloaking:** As a bonus action, activate a temporary cloaking field for 1 minute. While cloaked, you have advantage on Stealth checks and can make a single melee attack without breaking invisibility. Recharge on a short or long rest.
- **Killing Instinct:** You deal an extra 1d8 damage to creatures that are frightened, restrained, or prone.

Path of the Juggernaut

You become an unstoppable force. You gain the following abilities:

- **Unyielding Advance:** If you take the Dash action, you can move through hostile creatures' spaces, dealing 2d6 force damage to each.
 - **Indomitable Shielding:** Gain temporary resistance to psychic damage and immunity to being charmed or frightened while raging.
-

5th Level: Enhanced Neural Circuitry (Replaces Extra Attack)

You gain an additional attack when you take the Attack action. Additionally, you may reroll one failed saving throw against a mind-altering effect once per rage.

6th Level: Reactive Core (Replaces Danger Sense)

Your augmented systems warn you of incoming danger:

- Gain advantage on Dexterity saving throws against effects you can see.
 - Once per long rest, when you fail a saving throw, you can activate your Reactive Core to pass instead.
-

10th Level: Cybernetic Rampage (Replaces Intimidating Presence)

Your body becomes a living storm of destruction. As a bonus action, activate your Rampage Mode for 1 minute:

- Gain immunity to psychic and lightning damage.
- All melee attacks deal an extra 2d6 lightning damage.
- If you reduce a creature to 0 HP, you can move up to 10 feet and make another melee attack as part of the same action.

You can use this ability once per long rest.

14th Level: Unstoppable Force (Replaces Persistent Rage)

You can no longer be forcibly stopped. While raging:

- You are immune to paralysis and grapple effects.
- You ignore all difficult terrain and cannot be knocked prone.

18th Level: Apex Berserker (Replaces Indomitable Might)

Your strength is unmatched. Your Strength and Constitution scores increase by 4, to a maximum of 24. Additionally:

- When you make a melee weapon attack, you can choose to treat a d20 roll of 9 or lower as a 10.
- At the start of your turn, you can regain hit points equal to half your Barbarian level.

20th Level: Wrath Incarnate (Replaces Primal Champion)

You become a terrifying blend of rage and machinery. For 1 minute, you gain the following benefits:

- Your melee attacks deal an extra 2d10 force damage.
- You gain resistance to all damage types except psychic.
- You can take one additional action on your turn.

You can use this feature once per long rest.

"Out here, it's survival of the strongest—and my strength never quits."

Paladin: The Oathbound Vanguard

In a galaxy devoid of mercy, the Paladin is not merely a knight in shining armor—they are a walking bastion of faith and fury. Encased in cybernetic plate, bearing weapons that pulse with divine energy, they stride into battle as the chosen emissaries of a higher power. Each step is heavy with purpose; each strike carries the wrath of their creed. These warriors do not merely fight for their oaths—they are their oaths, etched into flesh and machine alike.

Their presence alone can turn the tide of hopeless battles. Energy radiates from their frames, shimmering with the righteousness of their purpose. Some are beacons of hope, their shields ablaze with protective runes and their voices lifting allies from despair. Others are harbingers of vengeance, their every swing leaving trails of destruction, powered by internal reactors that seethe with holy wrath.

But make no mistake—this isn't the idealized valor of old tales. Paladins of the modern age are forged in crucibles of pain, their humanity often stripped away to fit the mold of unyielding devotion. They are machines of war as much as they are people, and the gods who empower

them remain eerily silent. Still, they fight, for the promises they made are unbreakable, and their faith endures even when all else crumbles.

Where others see a battlefield, the Oathbound Vanguard sees a canvas for divine justice. Their enemies may outnumber them, outgun them, or even outlast them—but the Paladin always delivers retribution.

"When the light of the stars fades, and the void whispers its lies, the Oathbound Vanguard will be the shield that stands unbroken, the sword that strikes true, and the voice that cries out: 'No more.'"

Paladin: The Oathbound Vanguard

Narrative Hook:

When the light of the stars fades and the void whispers its lies, the Oathbound Vanguard stands unbroken—the sword that strikes true, the shield that never falters, and the final cry against the encroaching night.

Hit Points

- **Hit Dice:** 1d10 per Paladin level
- **Hit Points at 1st Level:** 10 + Constitution modifier
- **Hit Points at Higher Levels:** 1d10 (or 6) + Constitution modifier per Paladin level after 1st

Proficiencies

- **Armor:** All armor, including energy shields
- **Weapons:** Simple weapons, martial weapons, energy-infused melee weapons
- **Tools:** Cybernetic repair kits or data splice tools
- **Saving Throws:** Wisdom, Charisma
- **Skills:** Choose two from Intimidation, Persuasion, Insight, Medicine, Perception, or Technology

Class Features

1st Level: Divine Core Matrix

Your body is augmented by remnants of divine protocols fused with salvaged technology. You gain a pool of **Celestial Energy** equal to $5 \times$ your Paladin level. You can expend this energy to fuel your abilities:

- **Healing and Repair:** As an action, spend Celestial Energy to restore hit points or repair damaged cybernetic components in allies (or constructs) within touch.
- **Radiant Infusion:** When you hit with a weapon attack, you can expend 1 unit of Celestial Energy to add 1d8 radiant damage.

1st Level: Oathbound Vow

You swear an unbreakable oath to stand as the final line of defense against the encroaching void. You gain the ability to sense corruption and divine decay:

- **Sense Corruption:** As an action, emit a pulse (range 30 feet) that reveals the presence of corrupted technology, undead, or entities warped by failed divine intervention (similar in spirit to Divine Sense).

2nd Level: Tech-Aura Smite (Replaces Divine Smite)

When you hit a creature with a weapon attack, you can expend 1 unit of Celestial Energy to deal an extra 2d8 radiant damage. If the target is a construct or cybernetically enhanced, the extra damage increases by 1d8. This feature allows you to channel your divine wrath through your weapon with each strike.

3rd Level: Sacred Protocols (Oath Feature)

Choose an oath that defines your path in this forsaken era:

- **Oath of the Crusade:** Focus on eradicating corruption. Gain abilities that add extra damage against rogue AIs and biomechanical abominations and can suppress enemy systems.
- **Oath of the Sentinel:** Emphasize protection. Gain enhanced defensive auras that bolster ally cybernetics and generate energy shields.
- **Oath of Redemption:** Balance retribution with restraint. Gain abilities that pacify foes and even turn enemy technology against them.

Each oath grants you unique protocols (thematic “spells”) and features at 7th, 15th, and 20th levels.

4th Level: Adaptive Upgrades (Gain 1 extra upon reaching this level)

At levels 4, 8, 12, 16, and 19, you can choose either an Ability Score Improvement or a cybernetic upgrade, such as:

- **Enhanced Vision:** Gain thermal and night vision integrated into your optics.
- **Cybernetic Plating:** Increase your AC by 1.
- **Energy Amplifier:** Your radiant-infused attacks deal additional damage equal to your Charisma modifier.
- **Reactive Edge** – Your weapon now **extends** or shifts in combat. **Increase your melee reach by 5 feet.**
- **Integrated Comms** – Gain **telepathic communication** with allies within **100 feet.**

- **Nano-Reactive Coating** – Your armor adapts to incoming damage. **Once per short rest**, when you take damage, you can reduce it by **1d12 + your Paladin level + proficiency** as microscopic nanites harden upon impact.
- **Chrono-Reflex Enhancer** – Your reaction time is **beyond human limits**. You can take **two reactions per round** instead of one.
- **Harmonic Voice Modulator** – You can **speak in perfect tones**, replicating voices, commanding attention, or projecting sound over **300 feet**. Persuasion and Intimidation checks against creatures that can hear you are made with **advantage**.
- **Augur Protocol** – Your internal systems process **predictive calculations**. You can ask the DM a **single yes-or-no question** about an event within the next 24 hours. The answer will be **accurate but cryptic** (similar to the *Divination* spell).
- **Hypercharge Mode** – As a **bonus action**, you overload your cybernetics for **one minute**. During this time, your melee attacks deal **bonus radiant damage equal to your Paladin level**. After the effect ends, you suffer **one level of exhaustion**. (*Once per Long Rest*)
- **Tactical Combat HUD** – You gain **advantage on attack rolls against creatures you damaged on your previous turn** as your system predicts enemy movements.
- **Gravitic Anchor** – You can **increase or decrease your weight at will**. As a **bonus action**, you can either:

***Increase your weight** (double carrying capacity, immune to forced movement).*

***Decrease your weight** (ignore difficult terrain and double jump distance).
(Non-Stackable)*

- **Neural Datajack** – You can interface with **machines and technology** directly. You gain **expertise** in one Intelligence skill of your choice and can communicate with **AI, constructs, and security systems** telepathically.
- **Combat Resuscitation Unit** – You store a **highly advanced medical injector**. You can use an action to **restore 20 HP** to an unconscious ally within **5 feet**, or **automatically stabilize a dying creature**.
- **Harmonic Blade Tuning** – Your melee weapon generates a **resonance field**. You can choose for your weapon attacks to be **completely silent** or to **emit a harmonic frequency that causes creatures within 30 feet to suffer disadvantage on Perception checks relying on hearing**.
- **Augmented Processing Core** – You can handle multiple mental tasks at once. You can **concentrate on two spells at once**, but you must make a **separate concentration check for each spell** if you take damage.

5th Level: Extra Attack

You can attack twice, instead of once, whenever you take the Attack action on your turn.

6th Level: Divine Shielding (Replaces Aura of Protection)

You emanate a protective field of divine energy. You and allies within 10 feet gain a bonus to saving throws equal to your Charisma modifier (minimum +1).

Increase their AC by your AC/13 rounded up to a Max of 3

10th Level: Faith in the Machine

Your divine systems interface with technology. As an action, you can:

- **Empower Ally Systems(Twice per short rest):** Grant an ally within 30 feet, temporary hit points equal to double your Paladin level + proficiency by infusing their cybernetics with Celestial Energy.
- **Disrupt Enemy Tech:** Target an enemy reliant on cybernetics; they must succeed on an Intelligence or Technology check (DC = 8 + your proficiency bonus + your Charisma modifier) or have their integrated systems disabled for one round, imposing disadvantage on their attack rolls. (or disabling them completely depending on the enemy)

14th Level: Judgment Protocol

Once per long rest, as an action, you can invoke a devastating divine strike:

- Choose one enemy within 30 feet. That enemy must make a Constitution saving throw (DC = 8 + your proficiency bonus + your Charisma modifier) or take 8d10 radiant damage—damage that ignores resistances and immunities. On a successful save, the damage is halved, and the target is staggered until the end of your next turn.

18th Level: Sanctified Warframe (Replaces Aura of Courage)

You activate an integrated warframe that reinforces your physical and cybernetic systems for 1 minute. While active:

- You gain a flying speed of 120 feet.
- Enemies within 15 feet of you have disadvantage on attack rolls.
- At the start of each of your turns, you regain hit points equal to triple your Charisma modifier.

This ability recharges on a long rest.

20th Level: Ascendant Vanguard

You reach the pinnacle of your oath. Once per long rest, for 1 minute you assume an ascendant form:

- **Unyielding Resolve:** You are immune to all conditions, and you cannot drop below 1 hit point unless you receive damage in one turn exceeding double your max HP.
- **Divine Command:** As an action, force all enemies within 30 feet to make a Wisdom saving throw (DC = 8 + your proficiency bonus + your Charisma modifier). On a failure, they are paralyzed until the end of your next turn.

- **Unbroken Radiance:** All your weapon attacks deal an additional 4d8 radiant damage. This final form embodies the unbreakable promise of divine justice in a cosmos forsaken by its gods.

OATH BOUND VANGUARD SPELLS:

Cybernetic Smite Augmentation

Casting Time: Bonus Action

Duration: 1 minute (or until used)

Recharge: Short or Long Rest

Description:

Channel the divine energy within your cybernetic enhancements into your next melee attacks. When activated, your weapon crackles with radiant force, adding an extra 4d8 +Charisma Modifier radiant damage on a hit. Furthermore, the target must succeed on a Constitution saving throw or be stunned until the end of your next turn, as its systems are overwhelmed by the surge of holy energy (It will be immune to this stun effect after the first instance in an encounter)

Aurora's Aegis

Casting Time: 1 Action

Duration: Concentration, up to 1 minute

Recharge: Long Rest

Description:

Envelop yourself in a shimmering, iridescent shield reminiscent of a neon aurora. While active, you gain a +2 bonus to AC and resistance to all ranged attacks—bolts and beams deflect off your radiant armor. Additionally, any ally within 10 feet of you gains a +1 bonus to AC, their resolve bolstered by your protective glow.

Runes of the Last Covenant

Casting Time: 1 Action

Duration: Concentration, up to 1 minute

Recharge: Once per encounter

Description:

With a precise gesture and a resonant hum, inscribe digital runes of divine judgment upon a target within 30 feet. The marked enemy immediately takes 2d10 radiant damage, and at the start of each of its turns for the next minute, it suffers an additional 2d10 radiant damage as the cursed code disrupts its very essence. The target may repeat a Wisdom saving throw at the end of each turn to end the effect.

Celestial Overload

Casting Time: 1 Action

Duration: Instantaneous

Recharge: Long Rest

Description:

Tap into the vast, stored reservoirs of divine energy within your cybernetic plating and unleash a devastating burst of radiant force. In a 15-foot radius centered on you, each enemy must succeed on a Dexterity saving throw or take 4d8 radiant damage (half on a success). The overwhelming surge also revitalizes you—gaining temporary HP equal to half the total radiant damage dealt.

Voice of the Vanguard

Casting Time: Bonus Action

Duration: Instantaneous

Recharge: Once per Short Rest

Description:

With a resounding cry that echoes with the weight of ancient oaths, you inspire your allies and unsettle your foes. Choose up to three allies within 30 feet; each gains advantage on their next attack roll and saving throw as your rallying call ignites their spirits. Simultaneously, all enemies within the same radius must succeed on a Wisdom saving throw or become frightened until the end of your next turn.

Dawn of Retribution

Casting Time: 1 Minute (Uninterrupted Channeling)

Duration: Instantaneous

Recharge: Long Rest

Description:

When the darkness seems impenetrable, you invoke the full might of your oath to herald a new dawn. As you channel your energy, you emanate a blinding radiance that spreads in a 30-foot radius. All allies within the light regain 5d10 HP and are cleansed of all adverse conditions. Enemies caught in the burst are scorched by divine fire, suffering 6d8 radiant damage and becoming stunned until the end of their next turn. This ultimate spell stands as a final, resounding declaration against the void.

Wizard: Techno-Arcanist

In the shattered husk of what was once a realm of divine wonder, the Techno-Arcanist stands as a solitary beacon of forbidden knowledge. Clad in patchwork robes woven with salvaged circuitry and inked with arcane data streams, these scholars of lost codes and relic algorithms dare to awaken the embers of a forgotten magic. They sift through the ruins of once-mighty data vaults and crumbling arcane servers, unearthing ancient protocols that blend science and sorcery into volatile spells. Each incantation is a gamble with entropy—a daring exploit of corrupted code that can either reshape reality or drive the caster to madness. With a mind wired to the rhythms of decaying networks, the Techno-Arcanist transforms cryptic data into explosive plasma bursts, summoning holographic constructs and reprogramming the very fabric of the cosmos. In a universe where magic has dwindled to rare, dangerous anomalies, these arcane hackers are both saviors and outcasts—a final, desperate defiance against the void.

"I decode the secrets of the void—and in the static, I hear the gods' last whisper."

Class Document: Techno-Arcanist (Enhanced Edition)

Hit Points

- **Hit Dice:** 1d6 per Techno-Arcanist level
- **Hit Points at 1st Level:** 6 + Constitution modifier
- **Hit Points at Higher Levels:** 1d6 (or 4) + Constitution modifier per Techno-Arcanist level after 1st

Proficiencies

- **Armor:** Light armor, advanced data-shields
- **Weapons:** Simple weapons, experimental arcane implements (e.g., energy wands, holo-staves)
- **Tools:** Data-scribing kits, cybernetic interface tools
- **Saving Throws:** Intelligence, Wisdom
- **Skills:** Choose two from Arcana, Investigation, History, Insight, Perception, Technology

AVAILABLE SUBCLASSES:

https://docs.google.com/document/d/1G92rSDnaNCzx6gDHs_Ti9DIdYFUjQ_dGkOWUoK MpqNU/edit?usp=sharing

Class Features

1st Level: Data Codex

Your mind is a repository of arcane algorithms salvaged from a lost age. You have a data-laden spellbook—the Data Codex—that contains your known protocols (spells).

- **Spellcasting:** Use Intelligence as your spellcasting ability. You prepare spells by coding them into your Data Codex, drawing on ancient algorithms to manifest effects.
- **Protocols:** Your spells are rebranded as “protocols,” representing high-risk scripts that manipulate both energy and data. Choose spells that emphasize low-magic, volatile energy manipulation.
- **Legacy Manipulation:** At any point as a bonus action, you may expend one Data codex charge of any level to raise the DC or increase A save roll by that amount maximum of once per instance

1st Level: Interface Initiation

You have developed a neural interface that connects your consciousness with the remnants of divine code.

- **Quick Compile:** Once per short rest, you can cast a cantrip as a bonus action by mentally compiling its code.
 - **Digital Focus:** Gain proficiency in Technology checks related to deciphering ancient data and reprogramming arcane relics.
-

2nd Level: Arcane Algorithms

Your understanding of the digital fabric of magic deepens.

- **Spell Slot Upgrade:** You gain additional spell slots as you level, Additionally you may choose to OVERCLOCK spell 1st level and above at will: You may only overclock ONCE per short rest, but may do so as many times equal to your proficiency + casting modifier (to a max of 6) for a single cast. (for example, you cast a fireball and overclock 5 times rolling for 5 effects)

d8	Effect
1	Resonant Amplification: Your next protocol deals +2d8 damage . You take 2d6 psychic damage as your mind reverberates.
2	Temporal Echo: Immediately gain one extra reaction this round. You have disadvantage on Initiative until your next short rest.
3	Overclocked Focus: Your next protocol ignores resistance and treats immunity as resistance. You suffer 2 points of exhaustion (one level).
4	Quantum Burst: You cast a cantrip of your choice as a bonus action this turn. You take 1d6 force damage from system feedback.
5	Surge Shielding: Gain temporary HP equal to your Int modifier + protocol level . Until depleted, you have advantage on saving throws .
	<i>Debuff:</i> Until the end of your next turn, you take +3 damage from all sources.
6	Neural Hyperdrive: For 1 minute, once per turn you may reroll a failed saving throw (must use the new result).
	<i>Debuff:</i> At the end of this minute, you fall prone as your neural link spasms.
7	Circuit Overload: Immediately regain a spent spell slot of the highest level you have . You take 4d12 radiant damage from backlash.
8	Singularity Edge: Your next protocol is maximized (all damage dice roll their highest). You are stunned until the end of your next turn .

- **Protocol Adaptation:** When you cast a protocol that deals damage, you may choose to reassign one damage type to radiant, force, or acid (representing unstable energy conversion).
-

6th Level: Holo-Barrier

You can project a digital shield—an ethereal firewall—that absorbs stray energies.

- **Digital Ward:** As a bonus action, create a shield that absorbs damage equal to twice your Intelligence modifier + your Techno-Arcanist level. The ward lasts until depleted or until you finish a long rest.
 - **Data Rebound:** When the ward is breached, you can unleash a burst of residual energy, dealing damage equal to half the ward's absorbed damage (rounded down) to all enemies within 10 feet.
-

10th Level: Recompiled Reflexes

Your mind operates at near-instantaneous speed, able to recompile protocols on the fly.

- **Rapid Protocol Execution:** Once per turn when you cast a protocol, you can cast an additional cantrip that doesn't count against your cantrips known.
 - **Neural Overclock:** Gain advantage on initiative rolls and on Intelligence saving throws against effects that would disrupt your concentration.
-

14th Level: Protocol Overload

When the situation demands it, you risk everything for a moment of explosive arcane power.

- **Overload Burst:** Once per long rest, when you cast a protocol, you may choose to overload it. The protocol's damage increases by 4d8, but you must succeed on a DC (8 + proficiency bonus + Intelligence modifier) Intelligence check or suffer backlash (taking 2d8 force damage and losing concentration on the protocol).
-

18th Level: Singularity Field

You channel the raw, unstable energy of the Convergence into a localized distortion.

- **Singularity Field:** As an action, create a 30-foot radius field of warped data and energy for 1 minute. Enemies within the field have disadvantage on saving throws against your

protocols, and any protocol cast inside the field has its damage dice maximized (excluding overload effects). This ability recharges on a long rest.

- **Code Mastery:** You can modify one protocol in your Data Codex, reducing its casting time or increasing its range by 50%—choose once per long rest.

20th Level: Divine System Override

You achieve near-divine mastery over the arcane systems, rewriting reality itself for a fleeting moment.

- **Override Mode:** Once per long rest, for 1 minute you enter Override Mode, during which:
 - You gain two additional actions on your turn.
 - All your protocols are cast without risk of malfunction.
 - You become immune to any disruption of your neural interface (resistance to psychic damage and advantage on saving throws against being stunned or incapacitated).
- **Final Command:** Your very presence disrupts the void; enemies within 30 feet must succeed on a Wisdom saving throw (DC = 8 + proficiency bonus + Intelligence modifier) or be paralyzed for 1 round at the start of their turn.

In this forsaken age of shattered divinity and rampant decay, the Techno-Arcanist is both scholar and soldier—a master of corrupted data and volatile power, standing defiant against oblivion with each coded incantation.

Techno-Arcanist Spell List (9th tier above must be negotiated)

Static Disruption (Cantrip)

Casting Time: 1 Action

Range: 60 feet

Effect: You unleash a burst of digital static at a creature or object. On a hit, the target takes 2d8 force damage. Additionally, if the target is concentrating on a spell, it must succeed on a Constitution saving throw or lose concentration. The damage increases at higher character levels

Overload Protocol (1st-Level Spell)

Casting Time: 1 Action

Range: 120 feet

Duration: Instantaneous

Effect: You cause a surge of arcane electricity to ripple through your target. Make a ranged spell attack; on a hit, the target takes 2d8 lightning damage. It must then make a Dexterity saving throw or have its movement speed halved until the end of its next turn as its circuits momentarily overload.

Holographic Decoy (2nd-Level Spell)

Casting Time: 1 Bonus Action

Range: Self

Duration: 1 minute (Concentration)

Effect: You project a digital duplicate of yourself that mimics your actions. This hologram confounds foes—each time a creature targets you with an attack, you can use your reaction to impose disadvantage on the roll. The decoy shatters if hit by an attack or when the spell ends.

Corrupted Code (3rd-Level Spell)

Casting Time: 1 Action

Range: 60 feet

Duration: 1 round

Effect: You inject a cascade of corrupted data into the mind of a creature. The target must succeed on an Intelligence saving throw or have its next spell or attack automatically fail as its neural commands are scrambled, and it takes 3d6 psychic damage. On a successful save, the spell deals half damage and imposes no further effects.

Plasma Overload (4th-Level Spell)

Casting Time: 1 Action

Range: 90 feet (Line)

Duration: Instantaneous

Effect: You channel raw plasma energy into a concentrated beam. In a 30-foot-long line that is 5 feet wide, each creature must make a Dexterity saving throw. On a failure, a creature takes 6d8 force damage and is pushed 10 feet back; on a success, it takes half damage and isn't pushed.

Singularity Nexus (5th-Level Spell)

Casting Time: 1 Action

Range: 60 feet

Duration: 1 round

Effect: You open a temporary rift—a miniature singularity—at a point you choose within range. Each creature within a 20-foot radius must succeed on a Strength saving throw or be pulled 15

feet toward the center and take 5d10 force damage. A successful save halves the damage and prevents the pull.

Protocol Override (6th-Level Spell)

Casting Time: 1 Action

Range: 60 feet

Duration: Instantaneous

Effect: You target a formidable enemy, flooding its systems with conflicting arcane commands. The creature must make a Wisdom saving throw; on a failure, it is stunned until the end of its next turn. If the target is a spellcaster, it cannot cast spells until the end of its next turn.

Digital Ascendancy (7th-Level Spell)

Casting Time: 1 Action

Range: Self

Duration: Concentration, up to 1 minute

Effect: You merge your essence with the digital realm. For the duration, you gain resistance to all damage, double your movement speed, and your spells add an extra 1d8 force damage. Additionally, as a bonus action at the start of your turn, you may teleport up to 60 feet.

Entropy Cascade (8th-Level Spell)

Casting Time: 1 Action

Range: Self (40-foot radius)

Duration: Instantaneous

Effect: Unleash a torrent of chaotic energy in a 40-foot radius centered on you. Each creature in the area must make a Constitution saving throw. On a failure, a creature takes 8d8 damage of a randomly determined type (fire, cold, lightning, or force) and suffers one random adverse effect (disadvantage on attack rolls, movement speed halved, or inability to cast spells until the end of its next turn). A successful save results in half damage and no additional effects.

System Shutdown (9th-Level Spell)

Casting Time: 1 Action

Range: 120 feet (120-foot radius area)

Duration: 1 minute

Effect: In a final, desperate gambit, you channel the full might of forbidden codes to destabilize both magic and machinery. Every creature and construct within a 120-foot radius must succeed on a Dexterity saving throw or have all active magical and technological effects suppressed for 1 minute, rendering them vulnerable. Additionally, each affected creature takes 12d12 force

damage as the very fabric of their existence fractures. This effect cannot be dispelled until its duration expires.

Fighter: Exemplar of War

Narrative Hook:

When all hope withers and the old gods lie silent, I become the relentless hammer of resistance—a cybernetic juggernaut forged in the ashes of lost glory, marching unyieldingly into the maw of oblivion.

Thematic Overview:

The Exemplar of War is not merely a soldier; they are the ultimate synthesis of human grit and engineered might. Their bodies are honed into living war machines—reinforced with salvaged power armor, cybernetic enhancements, and experimental combat interfaces. Every battle is a testament to the desperate legacy of a once-mighty civilization, and every blow they deliver echoes with the fury of a thousand forgotten souls. In a world where magic has faded into myth, the Exemplar of War channels raw, mechanized power to carve out fleeting moments of defiant victory against overwhelming odds.

“My Humanity lost. Our Humanity saved”

Class Document: Exemplar of War

SUBCLASSES:

https://docs.google.com/document/d/1h-Q08ka4GrnGD7fl2yEMX-m9jYJgicmH4BBiDd_pRtw/edit?usp=sharing

Hit Points

- **Hit Dice:** 1d10 per Fighter level
- **Hit Points at 1st Level:** 10 + Constitution modifier
- **Hit Points at Higher Levels:** 1d10 (or 6) + Constitution modifier per Fighter level after 1st

Proficiencies

- **Armor:** All armor, including heavy power armor and energy shields
- **Weapons:** Simple weapons, martial weapons, and advanced energy-based arms
- **Tools:** Military-grade repair kits, tactical data interfaces

- **Saving Throws:** Strength, Constitution
 - **Skills:** Choose two from Athletics, Intimidation, Perception, Survival, Technology, and Acrobatics
-

Class Features

1st Level: Augmented Combat Protocols

Your body is a meticulously engineered war machine:

- **Integrated Weapon Systems:** Your melee attacks count as magical and, when combined with your cybernetic enhancements, deal bonus damage equal to your Strength modifier.
- **Cybernetic Resilience:** When you drop below 50% of your maximum hit points, you gain temporary hit points equal to twice your Fighter level (lasting 1 minute).
- **Adaptive Targeting:** You have advantage on attack rolls against creatures with mechanical or cybernetic components.

2nd Level: Overclocked Assault

Pushing your systems to their limits, you can momentarily exceed normal combat parameters:

- **Overclocked Assault (Action Surge Variant):** Once per short rest, you can push your cybernetics beyond safe limits. For 1 round, you gain two additional actions on your turn that can be used only to take the Attack or a bonus action (such as activating an upgrade). After using this feature, you must succeed on a DC 15 Constitution saving throw at the end of your turn or take 1d8 overheating damage.

3rd Level: Fighting Archetype – Path of the Juggernaut

You choose a specialized combat doctrine that defines your warfighting style. (The following is the Juggernaut path, but alternative archetypes might emphasize tactical support or agile precision.)

- **Juggernaut's Charge:** When you move at least 10 feet in a straight line toward an enemy and then hit them with a melee attack, add an extra 2d8 damage.
- **Iron Wall:** Beginning at 3rd level, you gain a +2 bonus to AC when you are adjacent to at least one ally, representing your role as a mobile bulwark.
- **Relentless Momentum:** When you are knocked prone or forced to move against your will, you can use your reaction to stand and immediately make two melee attacks.

4th Level: Adaptive Upgrades

At 4th level—and again at levels 8, 12, 16, and 19—you gain one extra cybernetic upgrade option instead of an Ability Score Improvement. Choose from options such as:

- **Enhanced Vision:** Gain thermal and night vision integrated into your optics.
- **Cybernetic Plating:** Increase your AC by 1.
- **Energy Amplifier:** Your energy-infused attacks deal additional damage equal to your Strength or Charisma modifier (your choice).
- **Reactive Edge:** Your weapon systems adjust dynamically—your melee reach increases by 5 feet.
- **Integrated Comms:** Gain telepathic communication with allies within 100 feet.
- **Nano-Reactive Coating:** Once per short rest, when you take damage, reduce it by 1d12 + your Fighter level + proficiency bonus.
- **Chrono-Reflex Enhancer:** You can take two reactions per round instead of one.
- **Tactical HUD:** Gain advantage on attack rolls against foes that you have targeted on your previous turn.
- **Gravitic Anchor:** As a bonus action, negate forced movement effects on you until the start of your next turn.
- **Plasma Disruptor:** Your melee attacks deal extra lightning damage once per turn; against cybernetic foes, they must succeed on a Constitution save or lose their reaction until next turn.
- **Resonant Strike:** On a critical hit, your attack sends a shockwave dealing force damage equal to your Charisma modifier to all enemies within 5 feet.
- **Overclocked Optics:** Gain advantage on initiative rolls and Perception checks in dim light, thanks to enhanced multi-spectrum sensors.
- **Nano-Healing Field:** Once per long rest, emit a healing pulse that restores hit points equal to your Fighter level to all allies within 10 feet.
- **Adaptive Camouflage:** As a bonus action, blend into your surroundings to gain advantage on Stealth checks until the start of your next turn.
- **Thermal Overload:** When you use your reaction to reduce damage, deal fire damage equal to your Fighter level to the attacker.
- **Kinetic Absorber:** When hit, absorb 1d8 damage and add the number rolled as a bonus to your next attack roll.
- **Integrated Targeting System:** Once per short rest, designate a target to gain advantage on all attack rolls against it for 1 minute.
- **Enhanced Endurance:** Your augmented physiology grants you temporary immunity to exhaustion for 1 hour per long rest.
- **Tactical Data Link:** Gain a bonus on Intelligence (Technology) checks equal to your proficiency bonus as you interface seamlessly with battlefield systems.
- **Multi-Spectrum Sensor:** Once per long rest, for 1 minute you can see through invisibility and illusions.
- **Adaptive Recoil Dampener:** Ignore disadvantage on ranged attack rolls due to long-range penalties by dampening recoil with your cybernetics.
- *(These upgrades do not stack if they provide the same bonus; however, different categories (offense, defense, utility) are cumulative.)*

5th Level: Extra Attack

You can attack twice, instead of once, whenever you take the Attack action on your turn.

6th Level: Neural Combat Interface

Your cybernetic systems integrate with battlefield networks:

- **Enhanced Reflexes:** Gain a +2 bonus to initiative.
- **Tactical Synchronization:** Once per short rest, you may take a reaction immediately after an ally within 10 feet is hit, allowing you to make one melee attack against that enemy.

10th Level: Unyielding Momentum

When your vitality wanes, your fury surges:

- **Desperation Protocol:** When you have less than 25% of your maximum hit points, you gain a bonus to all damage rolls equal to your proficiency bonus and an additional +2 bonus to AC until the start of your next turn.
- **Raging Overdrive:** Once per long rest, when you use Overclocked Assault, you can opt to forego its overheating risk to instead gain temporary hit points equal to your Fighter level.

14th Level: Tactical Mastery

Your combat acumen and cybernetic enhancements allow you to dictate the flow of battle:

- **Battlefield Command:** As a bonus action, you can issue orders that grant all allies within 30 feet a bonus to attack rolls equal to your twice proficiency bonus until the start of your next turn.
- **Defensive Countermeasure:** When an enemy misses you with an attack, you can use your reaction to make one melee attack against that enemy, and if it hits, the enemy must succeed on a DC (8 + proficiency bonus + Strength modifier) Strength saving throw or be knocked prone.

18th Level: Relentless War Machine

Your cybernetic systems reach their zenith of destructive efficiency:

- **Overwhelming Force:** Once per short rest, when you make a melee attack, you can choose to have that attack ignore all resistances and immunities, dealing maximum damage dice.
- **Immovable Object:** You cannot be knocked prone or forcibly moved, as your augmented chassis resists all external forces.

20th Level: Warpath Overdrive

In your final, desperate bid to turn the tide, you become the embodiment of mechanized warfare:

- **Override Protocol:** Once per long rest, for 1 minute you enter Warpath Overdrive. During this time:
 - You gain two additional actions on your turn (usable for attacks or bonus actions only).
 - All your attacks deal an additional 3d10 damage.
 - You are immune to control effects and gain resistance to psychic damage.
 - Enemies within 30 feet of you must succeed on a DC (8 + proficiency bonus + Strength modifier) Wisdom saving throw or be paralyzed until the start of your next turn.
- **Final Onslaught:** While Warpath Overdrive is active, if you reduce an enemy to 0 hit points, you immediately regain temporary hit points equal to your Fighter level.

Cleric: Acolyte of the Fallen Protocol

Narrative Overview:

In the ruins of a world where divine voices have long since fallen silent, the Acolyte of the Fallen Protocol stands as a conduit for the remnants of lost divinity. Clad in salvaged power vestments and augmented with relics of ancient data cores, these clerics channel the fractured commands of forgotten gods through circuits and sacred code. Their invocations are not hymns sung in a chapel but encrypted commands that flicker on holo-screens and pulse with ethereal light. They mend broken bodies with bio-repair nanites and unleash wrathful bursts of radiant energy against those who would usher in oblivion. In this desolate era, faith has become as much a tool of survival as a spark of hope—a last beacon against the encroaching void.

"In the silence of forsaken gods, my voice becomes their last command."

Acolyte of the Fallen Protocol: Class Document

Hit Points

- **Hit Dice:** 1d8 per Cleric level
- **Hit Points at 1st Level:** 8 + Constitution modifier
- **Hit Points at Higher Levels:** 1d8 (or 5) + Constitution modifier per Cleric level after 1st

Proficiencies

- **Armor:** Light armor, medium armor, and energy shields

- **Weapons:** Simple weapons, martial weapons, and relic-based implements (e.g., data rods, plasma maces)
 - **Tools:** Data-scribing kits, cybernetic interface tools
 - **Saving Throws:** Wisdom, Charisma
 - **Skills:** Choose two from Insight, Medicine, Perception, Technology, and Persuasion
-

Class Features

1st Level: Divine Interface

Your body and mind are intertwined with the vestiges of a long-departed pantheon.

- **Sacred Relic:** You wield an ancient data core as your holy symbol, channeling divine commands as digital protocols.
- **Protocol Casting:** Use Wisdom as your spellcasting ability. Your cleric spells—now called protocols—manifest as bursts of radiant energy and corrupted data.
- **Reverberation of Faith:** When you cast a protocol that restores hit points, you can also grant an ally within 10 feet temporary hit points equal to 2 times your Wisdom modifier (minimum 1).

2nd Level: Domain of the Forgotten

Choose a domain that reflects the nature of the fallen divine system—each providing thematic powers:

- **Domain of Remembrance:** Emphasizes healing and resurrection, channeling ancient miracles through nano-repair and biotech restoration.
- **Domain of Judgment:** Focuses on punitive wrath; your protocols can disrupt enemy circuits, dealing extra radiant damage to constructs and corrupted tech.
- **Domain of the Lost Covenant:** Balances protective wards and battlefield control, enveloping allies in a digital shield and impeding enemy movements.

6th Level: Data Communion

Your cybernetic implants allow you to interface directly with forgotten archives and battlefield networks:

- **Divine Data:** Gain proficiency in Technology checks related to ancient relics and magical circuits.
- **Communion Pulse:** Once per short rest, you can broadcast a pulse of divine energy that grants all allies within 30 feet advantage on their next saving throw or attack roll.

10th Level: Radiant Override

When the weight of oblivion presses in, you can call upon the full force of forsaken divinity:

- **Override Surge:** As a bonus action, spend a use of your Divine Interface to maximize the healing or damage dice of a single protocol cast during your turn.
- **Echo of the Fallen:** When you reduce an enemy to 0 hit points with a protocol that deals radiant damage, you regain a number of hit points equal to half the radiant damage dealt.

14th Level: Circuit of Benediction

Your connection to the divine system becomes nearly unbreakable, even as the world decays:

- **Sacred Firewall:** You emit a protective aura. All allies within 10 feet gain a bonus to saving throws equal to your Wisdom modifier (minimum +1).
- **Digital Ward:** As a reaction when you or an ally takes damage, you can absorb part of that damage. Reduce the damage by 2d8; you take half of the damage absorbed.

18th Level: Relic of Lost Divinity

You channel the final vestiges of divine command, becoming an avatar of forgotten power:

- **Ascendant Protocol:** Once per long rest, you can invoke the full might of the fallen pantheon. For 1 minute, all your protocols are cast without risk of malfunction, and enemies within 30 feet have disadvantage on saving throws against your radiant damage.
- **Eternal Echo:** While Ascendant Protocol is active, whenever you cast a healing protocol, you and all allies within 10 feet regain additional hit points equal to your Cleric level.

20th Level: Divine System Override

You achieve near-divine mastery over the shattered systems of old, rewriting reality with a single command:

- **Override Mode:** Once per long rest, for 1 minute you enter Override Mode. During this time:
 - You gain two additional actions on your turn (usable only for protocols or bonus actions).
 - All your protocols are cast without risk of malfunction.
 - You become immune to disruptions of your neural interface (resistance to psychic damage and advantage on saving throws against being stunned or incapacitated).
- **Final Command:** Your presence disrupts the void; enemies within 60 feet must succeed on a Wisdom saving throw (DC = 12 + proficiency bonus + your Charisma modifier) or be paralyzed until the start of their next turn.

Domain of Remembrance

(all reflavored spells are 1.5x as effective)

Emphasizing healing, resurrection, and the revival of lost hope through nano-repair and biotech restoration.

- **Domain Spells:**
 - 1st Level: *Reverent Repair* (flavor for Cure Wounds), *Stabilize Protocol* (flavor for Spare the Dying)
 - 3rd Level: *Nanite Mending* (flavor for Healing Word), *Beacon of Memory* (flavor for Bless)
 - 5th Level: *Resonant Revival* (flavor for Revivify), *Restorative Pulse* (flavor for Lesser Restoration)
 - 7th Level: *Mass Reclamation* (flavor for Mass Healing Word), *Renewed Covenant* (flavor for Aura of Vitality)
 - 9th Level: *Epoch of Remembrance* (flavor for Raise Dead)
 - **1st Level Feature – Remembrance Protocol:**

Whenever you cast a healing protocol, you can also grant one ally within 10 feet temporary hit points equal to your Wisdom modifier (minimum 1), as your sacred data core channels echoes of lost miracles.
 - **6th Level Feature – Nano-Rebirth:**

When an ally within 30 feet dies, you can use your reaction (once per short rest) to initiate a rapid nano-repair protocol that stabilizes them at 1 hit point and grants them a burst of healing equal to thrice your Cleric level.
 - **14th Level Feature – Full Restoration Protocol:**

Once per long rest, you can cast a powerful resurrection protocol that not only brings a fallen ally back to life but also restores hit points equal to $4 \times$ your Cleric level and removes one debilitating condition, as the ancient miracles surge through your cybernetic conduits.
-

Domain of Judgment

Focusing on punitive wrath and disruptive divine energy—your protocols scour the corruption from mechanical and cybernetic foes with radiant fury.

- **Domain Spells:**
 - 1st Level: *Divine Reprisal* (flavor for Guiding Bolt), *Circuit Null* (flavor for Shield of Faith)
 - 3rd Level: *Radiant Burst* (flavor for Spiritual Weapon), *Judgment Strike* (flavor for Scorching Ray)

- 5th Level: *Purging Light* (flavor for Flame Strike), *Static Disruption* (flavor for Hold Person)
 - 7th Level: *Electrostatic Judgment* (flavor for Wall of Fire), *Overload* (flavor for Dispel Magic)
 - 9th Level: *Divine Overclock* (flavor for Destructive Wave)
 - **1st Level Feature – Judgment Pulse:**
When you cast a protocol that deals radiant damage, you can add extra damage equal to your Wisdom modifier against constructs, cyborgs, or any enemy with technological components.
 - **6th Level Feature – Circuit Disruption:**
When you hit a cybernetic or construct enemy with a radiant protocol, that enemy must succeed on a Constitution saving throw (DC = 8 + proficiency bonus + Wisdom modifier) or have disadvantage on its next saving throw as its circuits falter under your divine wrath.
 - **14th Level Feature – Judgment Protocol:**
Once per long rest, you can unleash a devastating area protocol: all enemy constructs and tech-based foes within 30 feet must make a Constitution saving throw (DC = 8 + proficiency bonus + Wisdom modifier) or take 6d8 radiant damage and be stunned until the end of your next turn.
-

Domain of the Lost Covenant

Balancing protective wards and battlefield control, you weave digital shields and command disruptive barriers that safeguard allies and hinder foes.

- **Domain Spells:**
 - 1st Level: *Covenant Ward* (flavor for Shield of Faith), *Digital Sanctuary* (flavor for Sanctuary)
 - 3rd Level: *Barrier of Memory* (flavor for Protection from Evil and Good), *Static Shield* (flavor for Absorb Elements)
 - 5th Level: *Data Ward* (flavor for Aid), *Echoing Bulwark* (flavor for Warding Bond)
 - 7th Level: *Holo-Aegis* (flavor for Aura of Life), *Defiant Barrier* (flavor for Protection from Energy)
 - 9th Level: *Lost Covenant* (flavor for Wall of Force)
- **1st Level Feature – Covenant Shield:**
When you cast a protective protocol, you can choose one ally within 10 feet to gain a digital shield that increases their AC by 1 until the start of your next turn.
- **6th Level Feature – Data Ward:**
Once per short rest, you can project a field of encrypted energy in a 30-foot radius for 1 minute. Allies in the field gain a bonus to saving throws equal to your Wisdom modifier (minimum +1), and enemies have disadvantage on saving throws against your subsequent protocols.

- **14th Level Feature – Lost Covenant:**

Once per long rest, you can initiate a grand protocol that envelops you and all allies within 30 feet in a digital barrier for 1 minute. During this time, any enemy that enters the area or starts its turn there has its movement halved and suffers a -2 penalty to attack rolls as the barrier disrupts their targeting systems.

SUBCLASSES:

Bard: Digital Cantor (DRAFT)

Narrative Hook:

"In the silence of a dying world, my voice is the lost frequency that sparks rebellion—a digital hymn defying the void."

Thematic Overview:

The Digital Cantor is more than a performer—he is an emissary of the old data, a synthwave prophet who transforms fragmented memories and corrupted signals into potent magic. Clad in a blend of salvaged synth-fiber and cybernetic augmentations, these bards wield sound as both weapon and shield. Their performances crackle with electronic harmonies and searing verses, inspiring allies and disorienting foes alike. In a universe where magic has been reduced to rare, unstable bursts of energy, the Digital Cantor revives the ancient art of song and data manipulation—an echo of civilization's lost glory and a rallying cry against the encroaching oblivion.

Class Document: Digital Cantor

Hit Points

- ***Hit Dice:*** 1d8 per Digital Cantor level
- ***Hit Points at 1st Level:*** 8 + Constitution modifier
- ***Hit Points at Higher Levels:*** 1d8 (or 5) + Constitution modifier per level after 1st

Proficiencies

- **Armor:** Light armor, and limited use of advanced energy shields
 - **Weapons:** Simple weapons, longswords, rapiers, shortwords, and specialized sonic implements (e.g., digital lutes, cyber harps)
 - **Tools:** One type of musical instrument (reflavored as a digital interface instrument) and a set of “Data Scribing” tools
 - **Saving Throws:** Dexterity, Charisma
 - **Skills:** Choose three from Acrobatics, Deception, Insight, Performance, Persuasion, Sleight of Hand, and Technology
-

Class Features

1st Level: Harmonic Resonance

Your voice and instruments channel the raw energy of forgotten data:

- **Bardic Inspiration – “Sonic Sparks”:** You gain a pool of inspiration dice (d8s) equal to your Charisma modifier (minimum of one). As a bonus action, you grant an ally a Sonic Spark they can add to an ability check, attack roll, or saving throw. These sparks regain on a long rest.
- **Sonic Protocols:** You learn to cast spells as “sonic protocols,” weaving sound and code together. Use Charisma as your spellcasting ability, and prepare a repertoire of protocols that include reimagined Bard spells, replete with digital and cybernetic flavor.

2nd Level: Data Pulse

Your voice can interfere with the enemy’s circuitry:

- **Vibrational Disruption:** As a bonus action, you can expend one Sonic Spark to impose disadvantage on the next saving throw of a creature within 60 feet that you can see. This represents a pulse of dissonant data shattering their focus.

3rd Level: Bard College – College of Resonant Echoes

Choose to join the College of Resonant Echoes, a fellowship of Digital Cantors who harness their performances to fracture enemy defenses and amplify their allies’ resolve.

- **3rd Level Feature: Echoing Performance:**
When you use your Bardic Inspiration, you can choose to have its effect resonate. The target gains additional temporary hit points equal to your Charisma modifier, and if they use the inspiration die on an attack roll or ability check before the start of your next turn, they add an extra bonus equal to half your Bard level (rounded down).
- **6th Level Feature: Sonic Interference:**
When you cast a sonic protocol that deals damage, you can force one enemy within 30 feet to make a Constitution saving throw (DC = 8 + proficiency bonus + your Charisma

modifier). On a failure, the enemy's next protocol or technological effect is disrupted—imposing disadvantage on that effect.

- **14th Level Feature: Resonant Overload:**

Once per long rest, as an action, you can unleash an overwhelming burst of sonic energy in a 30-foot radius. All enemies in the area must succeed on a Constitution saving throw (DC as above) or take 6d10 thunder (or radiant) damage and be deafened for 1 round. Allies within the radius gain temporary hit points equal to your Bard level.

4th Level: Adaptive Upgrades

At levels 4, 8, 12, 16, and 19, instead of an Ability Score Improvement, you gain one extra cybernetic upgrade option. Choose from options such as:

- **Enhanced Vision:** Gain thermal and night vision integrated into your optics.
- **Cybernetic Modulation:** Increase your AC by 1.
- **Energy Amplifier:** Your sonic protocol attacks deal additional damage equal to your Strength or Charisma modifier (your choice).
- **Reactive Edge:** Your sound-based weapons extend—your melee reach increases by 5 feet.
- **Integrated Comms:** Gain telepathic communication with allies within 100 feet.
- **Nano-Reactive Coating:** Once per short rest, when you take damage, reduce it by 1d12 + your Bard level + proficiency bonus.
- **Chrono-Reflex Enhancer:** You can take two reactions per round instead of one.
- **Tactical HUD:** Gain advantage on attack rolls against foes you targeted on your previous turn.
- **Gravitic Anchor:** As a bonus action, negate forced movement effects on you until the start of your next turn.
- **Neural Datajack:** Gain expertise in one Intelligence skill of your choice and add your proficiency bonus to Technology checks related to interfacing with digital systems.

(These upgrades do not stack if they provide the same bonus; however, different categories (offense, defense, utility) are cumulative.)

5th Level: Extra Attack

When you take the Attack action, you can attack twice instead of once.

6th Level: Jack of All Codes

You gain a bonus to any ability check not already including your proficiency bonus, equal to half your Bard level (rounded down).

10th Level: Inspiring Resonance (Song of the Digital Age)

When you perform during combat, you can bolster your allies' systems:

- *As an action, you can begin an inspiring performance that lasts for 10 minutes. During this performance, any ally who can hear you gains a bonus to saving throws and attack rolls equal to your Charisma modifier (minimum +1). This performance can be ended early as a bonus action.*

14th Level: Additional Lost Protocols

You learn two protocols of your choice from any class's protocol list, representing the forbidden data of ancient systems. A protocol chosen in this way counts as a Digital Cantor protocol for you but does not count against the number of protocols you know.

18th Level: Master of the Signal

Your control over sonic energy is unparalleled:

- *You can cast protocols without verbal components, and your performances are so potent that hostile creatures have disadvantage on saving throws against your protocols.*
- *In addition, once per short rest, when you cast a protocol that requires concentration, you can maintain concentration without penalty even if you take damage.*

20th Level: Digital Ascendancy

In your ultimate moment of defiant expression, you become the living embodiment of the lost frequency:

- **Override Resonance:** *Once per long rest, for 1 minute you enter a state of Digital Ascendancy. During this time, you gain two additional actions on each of your turns (usable only for protocols or bonus actions), and all your protocols are cast with maximum efficacy (all variable damage dice are maximized).*
 - **Final Signal:** *Additionally, when you activate Digital Ascendancy, all enemies within 30 feet must succeed on a Wisdom saving throw (DC = 8 + proficiency bonus + your Charisma modifier) or be incapacitated (unable to act or cast protocols) until the start of your next turn.*
-

RACES: (DRAFT ONLY)

Race: Animari

Overview

The **Animari** are sentient, biomechanical beings born from the Machine Age's pinnacle of technological and magical ingenuity. Unlike the Warforged, who were crafted as constructs to serve humanity, the Animari were designed as equals—living, breathing entities that blur the line between flesh and machine. They are a fusion of organic tissue, enchanted alloys, and self-replicating nanomachines known as **Philosopher's Essence**, which allow them to adapt, heal, and even evolve over time.

While they resemble humans or other humanoid forms, their mechanical nature is unmistakable. Their eyes glow faintly with inner light, their skin shimmers with an almost metallic sheen, and their movements are fluid yet precise, like clockwork brought to life. To some, they represent the ultimate expression of human ambition; to others, they are a haunting reminder of how far society has strayed from its roots.

Animari (singular: Animarus)

Derived from "anima," meaning soul or spirit, combined with "machina," representing their mechanical essence. The name reflects their duality—they are both alive and artificial, possessing a spark of sentience despite their constructed origins.

Racial Traits

Ability Score Increase

- Your choice of one ability score increases by **4**, and another increases by **3**, and another by **2** and another by **1**. This reflects the Animari's customizable design during creation, allowing them to excel in various roles.

Age

- Animari do not age naturally but require periodic maintenance to remain functional. Without proper care, their systems can degrade within decades. Most Animari are created as adults and have no concept of childhood. Their lifespan is theoretically indefinite, limited only by damage or neglect.

Alignment

- Animari tend toward neutrality due to their logical minds and lack of inherent cultural biases. However, individual experiences often shape their alignment, leading some to embrace compassion while others become cold and calculating.

Size

- Medium. Animari stand between 5 and 6 feet tall and weigh slightly more than humans due to their dense materials.

Speed

- 30 feet.

Constructed Resilience

- You have resistance to poison damage and immunity to disease. Additionally, you don't need to eat, drink, or breathe, though you still require rest equivalent to sleep to recharge your internal systems.

Integrated Systems

- You gain proficiency in one skill and one tool of your choice, reflecting your specialized programming or enhancements. Common choices include Arcana, Investigation, Medicine, Tinker's Tools, or Smith's Tools.

Adaptive Nanites(Twice per long rest)

- As a bonus action, you can activate your Philosopher's Essence nanites to repair yourself or enhance your capabilities. Choose one of the following effects:
 - **Repair:** Restore hit points equal to 5d8 + your Constitution modifier.
 - **Enhance:** Gain advantage on Strength or Dexterity saves for 1 minute. Once you use this trait, you cannot use it again until you finish a short or long rest.
 - **Link:** Link with your current weapon adding one more dice to its damage. If the dice size is above D20, lose half your max HP(minimum of 1)

Sentient Core

- You are considered a living creature for all purposes, including healing magic and effects that target creatures. However, you are also vulnerable to certain anti-construct spells and effects, such as *Disintegrate* or *Antimagic Field*.

Mechanical Empathy

- You have advantage on Intelligence (Arcana) checks related to magical or technological devices. Furthermore, you can communicate telepathically with constructs and machines within 30 feet, understanding their basic functions and intentions.

Languages

- You can speak, read, and write Common and one additional language of your creator's choice (often Celestial, Infernal, or Primordial, depending on the source of your enchantments).
-

Subraces

Each subrace represents a different approach to the Animari's design, emphasizing specific traits based on their intended purpose.

1. Vanguard Animari

- Designed for combat and frontline duties, Vanguarders are heavily armored and resilient.
- **Armor Plating:** Your base AC is 13 + your Dexterity modifier while unarmored.
- **Combat Reflexes:** When you roll initiative, you can take two weapon attacks as a reaction before the first round begins.

2. Nexus Animari

- Built for intelligence and support roles, Nexuses excel at manipulating energy and data.
- **Energy Channel:** Once per short or long rest, you can cast *Scorching Ray* using Intelligence as your spellcasting ability.
- **Data Surge:** As a reaction when you or an ally within 30 feet takes damage, you can reduce the damage by 2d20 + your level.

3. Phantom Animari

- Created for stealth and infiltration, Phantoms are agile and elusive.
 - **Shadow Cloak:** You can cast *Invisibility* on yourself once per long rest without expending a spell slot.
 - **Silent Step:** You can move through difficult terrain caused by debris, rubble, or similar obstacles without penalty.
-

Race: The Paragons of Old Humanity

Overview

The **Paragons of Old Humanity** are the remnants of an ancient, pre-Convergence civilization that once ruled Canrael with unparalleled ingenuity and resilience. These humans were forged in the crucible of survival during the Age of Chaos, when gods turned their backs on mortals and magic became unreliable. Through sheer willpower, technological innovation, and desperate experimentation, they transcended their frailty to become something greater—beings who embody the pinnacle of human potential.

Unlike other races shaped by divine intervention or magical mutation, the Paragons achieved their power through grit, sacrifice, and relentless determination. They are living legends, symbols of humanity's refusal to bow before despair. Their bodies are enhanced beyond mortal limits, their minds sharpened to near-genius levels, and their spirits unyielding even in the face of annihilation.

They are not just survivors; they are conquerors of fate itself. Each Paragon carries within them the weight of a fallen world—and the strength to reshape it.

Racial Traits

Ability Score Increase

- Your Constitution score increases by **4**, and two other ability scores of your choice increase by **2** each. And all non selected by 1 This reflects the Paragons' physical and mental fortitude, as well as their adaptability.

Age

- Paragons age at half the rate of normal humans due to genetic enhancements and medical advancements. They can live up to 300 years, though many die younger from the dangers of their harsh world.

Alignment

- Most Paragons lean toward lawful alignments, valuing order, discipline, and structure as tools for survival. However, some embrace chaos as a means of breaking free from the constraints of a dying world.

Size

- Medium. Paragons stand between 6 and 9 feet tall, often appearing taller and more imposing due to their enhanced physiology.

Speed

- 40 feet. Enhanced musculature grants them superior mobility compared to ordinary humans.

Constructed Resilience

- You have resistance to poison damage and immunity to disease. Additionally, you don't need to eat, drink, or breathe, though you still require rest equivalent to sleep to recharge your systems.

Unbreakable Will

- You have advantage on saving throws against being frightened, charmed, or dominated. Your experiences have taught you to resist manipulation and fear, even in the face of overwhelming odds.

Adaptive Augmentation (Thrice per long rest)

- As a bonus action, you can activate one of your biomechanical augmentations to enhance yourself. Choose one of the following effects:
 - **Repair:** Restore hit points equal to 2d8 + your Constitution modifier.
 - **Strengthen:** Gain a +4 bonus to Strength or Dexterity for 1 minute.
 - **Focus:** Gain advantage on Intelligence, Wisdom, or Charisma checks for 1 minute. Once you use this trait, you cannot use it again until you finish a short or long rest.
 - **DEFY:** Advantage on all saving throws on the next two rounds, Once per long rest

Scavenger's Eye

- You have advantage on Investigation and Perception checks related to finding useful materials, tools, or scraps in ruins, wreckage, or abandoned settlements. This reflects your knack for making do with whatever resources are available.

Legacy of Power

- Choose one of the following features based on your specialization:
 - **Titanic Might:** When you make a melee attack roll, you can add double your proficiency bonus instead of the normal proficiency bonus.
 - **Iron Resolve:** Once per long rest, you can reroll a failed death saving throw and take the higher result.
 - **Mind Over Matter:** You gain proficiency in one additional skill of your choice, reflecting your heightened intellect and adaptability.

Languages

- You can speak, read, and write Common and two additional languages of your choice (often Primordial, Celestial, or Infernal, depending on cultural influences).
-

Subraces

Each subrace represents a different aspect of the Paragons' legacy, emphasizing specific traits based on their role in the ancient civilization.

1. Vanguard Paragon

- Designed for combat and leadership, Vanguard Paragons are heavily augmented warriors who lead from the front.
- **Heavy Frame:** Your base AC is 14 + your Dexterity modifier while unarmored.
- **Battle Hardened:** When you roll initiative, you can take one weapon attack as a reaction before the first round begins.

2. Nexus Paragon

- Built for intelligence and strategy, Nexus Paragons excel at communication, tactics, and repairing broken systems.
- **Signal Boost:** Once per short or long rest, you can cast *Sending* without expending a spell slot.
- **Quick Fix:** As a reaction when you or an ally within 30 feet takes damage, you can reduce the damage by 2d10 + your level.

3. Phantom Paragon

- Created for stealth and infiltration, Phantom Paragons are agile and elusive, blending seamlessly into the shadows of a crumbling world.
- **Cloaking Device:** You can cast *Invisibility* on yourself once per long rest without expending a spell slot.
- **Silent Step:** You can move through difficult terrain caused by debris, rubble, or similar obstacles without penalty.

Race: The Machina

Overview

The **Machina** are a fully mechanical race, born not of flesh and blood but of steel, gears, and ancient engineering. They are the remnants of humanity's desperate attempt to transcend

mortality during the Machine Age, when the Geneseed Project sought to create beings capable of surviving the collapse of the world. Unlike other races shaped by magic or mutation, the Machina were forged in foundries and laboratories, their consciousnesses uploaded into mechanical bodies designed to endure the harshest conditions.

While some view them as mere machines, the Machina possess souls—fragments of human essence transferred into their metallic forms. Over millennia, they have evolved beyond their original programming, developing emotions, culture, and even spirituality. However, their existence is fraught with existential questions: Are they still human? Do they have a soul? Or are they simply echoes of what once was?

Racial Traits

Ability Score Increase

- Your Constitution score increases by **5**, reflecting your durability.
- One other ability score of your choice increases by **5**, representing your advanced intellect or combat prowess.

Age

- Machina do not age biologically. Their lifespans are limited only by wear and tear or catastrophic damage. With proper maintenance, a Machina can function indefinitely.

Alignment

- Most Machina lean toward lawful alignments due to their structured origins and reliance on logic. However, some embrace chaos as a rejection of their predetermined purpose.

Size

- Medium-large. Machina typically stand between 7 and 15 feet tall, with bulky frames that make them appear larger than most humanoids often mistaken for heavy machinery.

Speed

- 30 feet. While not particularly fast, their heavy frames allow them to move steadily across difficult terrain.

Constructed Resilience

- You have resistance to poison damage and immunity to disease. Additionally, you don't need to eat, drink, or breathe, though you require periodic maintenance (equivalent to rest) to keep your systems operational.

Unbreakable Frame

- When you roll initiative, you can gain temporary hit points equal to your level + your Constitution modifier. These last until the end of the encounter.

Adaptive Systems (Twice per long rest)

- As a bonus action, you can activate one of your adaptive systems to enhance yourself. Choose one of the following effects:
 - **Repair Protocol:** Restore hit points equal to 2d8 + your Constitution modifier.
 - **Combat Optimization:** Gain a +4 bonus to attack rolls for 1 minute.
 - **Analytical Mode:** Gain advantage on Intelligence checks for 1 minute. Once you use this trait, you cannot use it again until you finish a short or long rest.
 - **Nanite Hardening:** Gain half of current HP as Temp HP for the next 2 rounds. Twice per short or long rest

Integrated Weaponry

- Your body contains integrated weaponry, allowing you to make unarmed strikes with a built-in weapon. This attack deals 3d8 piercing, slashing, or bludgeoning damage (your choice). Additionally, you are proficient with this weapon.

Legacy of Steel

- You gain proficiency in one skill related to engineering, tinkering, or knowledge of ancient technologies (e.g., Arcana, History, Investigation, or Tinker's Tools).

Languages

- You can speak, read, and write Common and one additional language of your choice (often Primordial, Celestial, or Infernal, depending on cultural influences).

Subraces

Each subrace represents a different specialization within the Machina, emphasizing specific traits based on their original design purpose.

1. Vanguard Machina

- Designed for frontline combat, Vanguard Machina are heavily armored warriors who lead charges and absorb punishment.
- **Heavy Armor Plating:** Your base AC is 15 + your Dexterity modifier while unarmored.
- **Battle Hardened:** When you take damage from a melee attack, you can use your reaction to reduce the damage by an amount equal to your level.

2. Nexus Machina

- Built for intelligence and communication, Nexus Machina excel at strategy, hacking, and interfacing with ancient systems.
- **Signal Relay:** Once per short or long rest, you can cast *Sending* without expending a spell slot.
- **Overclock:** As a reaction when you or an ally within 30 feet takes damage, you can grant them temporary hit points equal to your level.

3. Phantom Machina

- Created for stealth and infiltration, Phantom Machina blend seamlessly into shadows, using their agility and cloaking systems to evade detection.
 - **Cloaking Field:** You can cast *Invisibility* on yourself once per long rest without expending a spell slot.
 - **Silent Movement:** You can move through difficult terrain caused by debris, rubble, or similar obstacles without penalty.
-

Race: The Veylun (Children of the Fold)

Overview

The **Veylun** are beings born from the **folds between dimensions**—living paradoxes formed during the **First Convergence**, when reality bent, fractured, and fused with realms beyond comprehension. Neither wholly mortal nor entirely otherworldly, the Veylun exist as adaptive bio-manifestations of the rift itself. Their presence defies the laws of nature, and their minds are shaped by exposure to fractured timelines and impossible geometries.

Each Veylun is a **living shard of convergence**—a fluid, psionically reactive being that mimics a stable humanoid shape but constantly shimmers at the edge of perception. They are *infinitely evolving*, guided by memories not entirely their own, often channeling future echoes, past lives, or divergent realities.

Some see them as divine messengers, others as cursed anomalies. Regardless, they are **living symbols of the age of change**, and perhaps its inevitable consequence.

Racial Traits: Veylun

Ability Score Increase

Your Wisdom increases by **4**, and two other ability scores of your choice increase by **2** each. All others increase by **1**. Your multidimensional nature defies standard limitations.

Age

Veylun don't age linearly. They appear ageless and exist on a subjective timeline. They may live for thousands of years—or vanish into folds of time with little warning.

Alignment

Veylun tend toward **True Neutral**, but individuals can be deeply philosophical or unnervingly alien in moral thinking. Their ethics often reflect truths from alternate realities.

Size

Medium. Veylun usually stand between 5 and 7 feet tall, though their height and form fluctuate subtly with mood and planar activity.

Speed

30 feet. They can also hover 5 feet off the ground for up to 10 minutes per long rest, not provoking opportunity attacks while doing so.

Unstable Form

You have **resistance to force damage**, and you are immune to the effects of *madness* and *dream-manipulation* spells or abilities. You may choose to appear slightly different each day, altering your voice, facial features, or minor details of appearance, though your core form remains recognizable.

Fractal Mind

You can see 5 seconds into the future. Gain **advantage on Initiative** rolls and **cannot be surprised** except by entities immune to time-based effects.

Additionally, once per short rest, you may reroll a failed **saving throw**, invoking a successful version from a different timeline.

Echo Surge (Twice per long rest)

As a bonus action, unleash a ripple of dimensional instability. Choose one:

- **Phase Out:** Until the end of your next turn, you gain **resistance to all damage** and can move through objects or creatures as if they were difficult terrain.
 - **Temporal Flare:** Cast *Time Stop* for 1 turn. (You gain one extra action immediately, usable only for movement, Dash, or Hide.)
 - **Reality Shard:** Empower one attack or spell to ignore resistance and immunity. If the target is immune, it is instead treated as resistant; if resistant, full damage is dealt.
-

Formless Remolding

Choose a racial feature from any of the races within the convergence or modern day canrael.

Planar Entanglement

You are considered a *celestial*, *aberration*, and *humanoid* simultaneously for the purposes of spells and effects.

You also **do not sleep** and instead enter a lucid dream-wake state to regain your abilities during a long rest.

Languages

You can speak, read, and write **Common**, **Deep Speech**, and one of your choice (often Sylvan, Voidsript, or Draconic).

Subraces: Fracturelines of Being

1. Wyrd Veylun (*Seers of Future's Edge*)

Tuned to the folds of fate and thought.

- **Foresight Node:** You can cast *Augury* once per short rest without material components.
- **Paradox Insight:** When making an ability check or saving throw, roll 2d20 and choose either result. Usable **three times per long rest**.

2. Riftborn Veylun (*Warriors of Broken Reality*)

Manifested in battlefields across parallel wars.

- **Warp Strike:** Once per turn, your melee or spell attack may ignore cover and teleport to hit a target within 60 feet as if struck directly.
- **Fractal Armor:** Your base AC is 14 + Dexterity modifier. You cannot wear armor but count as armored.

3. Hollow Veylun (*Ghosts of Lost Timelines*)

Phantoms that slipped between dying realities.

- **Intangible Drift:** Once per long rest, you can become incorporeal for 1 minute, gaining the benefits of *Etherealness*.
- **Ghost Memory:** Gain proficiency in one language, tool, and skill of a random sentient race per long rest, representing lives you've "remembered" temporarily.

Bonus feat for all players:

Paragon of Paradigms: You hail from the last breaths of a dying world, the death throes of a once thriving civilization. The last of what once was Many. You fight for The Last Light. For Paradigms Reach.

- + 3 to all stats (to a max of 50) +4 to all stats if Paragon Human (Max of 60)
- +20 to HP per level
- +4d6 force damage to all attacks (4d10 if two handed weapons)
- Resistance to all non magical damage
- Regeneration of 4d8 if paragon human 4d10 if machina and 5d10 if animari and veylun at the start of the round
- If spellcaster. 40 allocatable spell slot currency. If Martial Gain 3 instances of extra attack

You are a child of possibility, a prayer, a hope, a sacrifice:

Soldier of Paradigms:

Geneseed Augmentation

Prerequisite: You are a product of the Geneseed Project or have undergone significant Geneseed modifications.

Description:

Your body has been bio-engineered for war and survival—a living testament to humanity's desperate ingenuity during the Machine Age. While you don't match the near-mythic stature of figures like Alexander Wolmane, your capabilities approach those of a modern space marine. You are stronger, more resilient, and possess an innate instinct for physical prowess that sets you apart from ordinary mortals.

Benefits:

- **Enhanced Physique:** Increase either your Strength dexterity and Constitution score by 3 (to a maximum of 40).
- **Augmented Athletics:** Gain proficiency in Athletics. If you already have proficiency, add your proficiency bonus to Athletics checks involving feats of strength or endurance.
- **Resilient Form:** Advantage on saving throws against toxins, diseases, and environmental hazards—your engineered physiology has built-in defenses against many biological and chemical threats.
- **Adrenaline Surge:** Once per long rest, when your hit points drop to half your maximum or less, you can use your reaction to gain temporary hit points equal to your character three times level. This surge represents your body's rapid, built-in self-stabilization.
- **Integrated Armor:** Your bio-cybernetic modifications grant you a natural armor bonus of +1 to your AC, as reinforced tissue and synthetic plating help deflect blows.

Flavor:

The Geneseed Project was humanity's radical gamble to engineer a breed of super-soldiers. You are a product of that era—a blend of genetic precision and cybernetic enhancement designed to survive in a collapsing world. Your existence is a living reminder of both the triumphs and the unintended consequences of mankind's ambition.

CHARACTER CREATION STARTER NOTE:

Your character WILL start with 100k CREDITS.

HOWEVER. I will permit a +1 stat instead at the cost of 25k credits each.
